And What Have You

By BOB CRAIG

Don't know about the rest of you Piper fans but I am glad our open date is behind us. Boy, it seems like it has been a long time since the Pipers played Clyde.

And speaking of long times, I was in Lubbock Saturday afternoon for the Tech-New Mexico game and that had to be the longest game I can ever remember sitting through. The game wasn't bad enough, but it seemed like the whole afternoon was spent waiting on the television commercials.

Judging from the Cowboy game I attended last year, the pros seem to know how to cover up for the fact that they are waiting on another TV commercial and you hardly notice it. But the college players have not learned this art as yet.

There is a firm in New York that takes government statistics at the county level and works up news stories for sale to the area papers. The Herald was on their mailing list for a long time and have used some of their stories in the past. But for some time now we have not been getting their stories for some reason or the other.

But The Perryton Herald is still on their mailing list and according to Publisher Harold Hudson, the latest story they have received was about employment in Ochiltree County.

The story said that 91 percent of the people employed were employed within the county which seemed all right to Hudson but if you are at all familiar with that county you can only wonder with him as to where the other nine percent are working.

But what really threw the publisher was when the story got down to the information on how all of these people got to their jobs. It said that 88 percent of the working population travel to their jobs by car, either alone or with others. Another five percent work at home or are near enough to their places of employment to walk there. Of the others, 7.4 percent walk, 5.5 percent use buses or streetcars, 3.5 percent go by railroad, subway or taxi. The remaining 2.3 percent were unaccounted for.

Now Ochiltree County is like Jones County, their subway system is still in the planning stages, their taxi and bus service is lacking and it has been some time since the last passenger train has carried anybody to work.

As Harold points out in his column, the percentage of people in Ochiltree County who ride automobiles to work is mighty close to 100 percent. There

Second Application Made In Weevil Control Program

The Jones County Bollweevil Association made its second application this week of 16 ounces of Low Volume Malathion for control of the diapause weevils, according to County Agent Kirby Clayton. The Fall Diapause Weevil Control Program is designed to control bollweevil before they enter the hibernation stage and thus prevent heavy buildup of weevils in the spring.

The spray program is under the joint supervision of the State Department of Agriculture and the Jones County Bollweevil Association. Fred Parker and Mark Trostle are supervisors representing the State Department of Agriculture and Stuart Propst, president of the

Jones County Bollweevil Association, represents the local farmers. Nell Williams and Peggy Propst are serving as secretaries and office supervisors for the program.

Clayton is urging farmers who apply desiccants or defoliants to add one fourth pound of Guthion to Arsenic Acid or Phosphate type defoliant to aid in the control of the diapausing weevils. However, the agent cautions against the addition of Guthion or Methyl Parathion to Chlorate type defoliants. The combination of these two may pose a much greater toxicity hazard than either of the compounds used alone.

Propst cautioned farmers here this week that they should add the Guthion to the desiccants if they expect a refund from the Bollweevil Association. The refund would be due only to cotton farmers who defoliated early and did not get the benefit from the third spraying from the Bollweevil Association.

Propst also stated that farmers are expected to practice early stalk destruction and plowing under debris.

Tentative plans are for the carnival, complete with booths of games, food, etc., to be held late in October. All clubs in the city will be asked to participate.

To comply with state regulations, the center must have enough money to cover two month's expenses before it can be opened.

Mrs. Bonds also asked for

contributions of baby furniture, other furniture, repairable toys, games, and other recreational equipment suitable for use at the center.

The center which would provide care of children of working parents, is still in the planning stages but many local citizens are actively engaged in getting necessary arrangements made.

"Organized School Boosters," is the slogan now for the Hamlin Public School. Monday night, following the request of a number of interested mothers, for all parents and citizens of Hamlin to meet at the school auditorium for the purpose of organizing a Parent-Teachers Association. There assembled not less than fifty persons who measured up to that type. The house was called to order by Mrs. E. M. Wilson, who stated the object of the meeting. She was chosen as temporary Chairman and Miss Edith Adkins was chosen as temporary Secretary. Dr. J. F. Taylor, member of the school board, was called on to make a talk on "Why a Parent-Teacher Association." He took up the subject and discussed it in a most exhaustive manner.

When A. D. McLaughlin sold out and moved away from Hamlin, he left a very important and honorable position vacant in the city government. He was Mayor, and now Hamlin needs another Mayor. Such a man is "President" of the city and head of the city council. Saturday the qualified voters of Hamlin will be called upon to name the successor to Mr. McLaughlin.

Since there is also a vacancy in the Council, there must be a new man elected. Several have been suggested, but no one has advocated an expression in the press as to this place.

TWENTY YEARS AGO
(October 2, 1953)

Firemen from the Hamlin Volunteer Fire Department were slated to participate yesterday afternoon in contests at the semi-annual convention of the Mid-West Texas Firemen's Association convention at Merkel. Jake Lawson of Hamlin is president of the group, and was to have presided at program and business sessions of the meeting. Thirty towns in the central West Texas area were scheduled to be represented at the gathering.

Two new oil prospectors have been staked during the past few days in the Hamlin area to maintain the steady development of the region.

New soil conservation district supervisor for Zone 5 will be named in an election to be conducted in the California Creek Soil Conservation District next Tuesday, Oct. 6, at 8 p.m. at the school in Sagerton. At the meeting slides will be shown on soil conservation work in the district. Farmers in this area are urged to attend.

Plans for a concerted clean-up and renovation of the Hamlin City Park, located just south of the Hamlin High School Stadium, will be outlined Monday evening, Oct. 5, at the city hall, according to officers of the Business and Professional Women's Club, under whose sponsorship the park program is being conducted. Members of the City Council voted last Tuesday evening to give the B&PW group the project of promoting the park clean-up.

TEN YEARS AGO
(September 26, 1963)

The Pied Pipers will close out a three game home stand as they take on the highly rated Cisco Lobos here Friday night. The Lobos have defeated both of their home county rivals, Ranger and Eastland, and suffered a narrow 6-0 loss to Stamford, while the Pipers own a 3-0 record. The Lobos are the pick for the 8-AA flag and boast a strong defensive game that has limited their three opponents to 20 points.

The fifth annual Homecoming of the Ex-Student Association of McCaulley

School will be held Oct. 11 and 12. The Homecoming football game will start at 8 p.m. when the McCaulley Eagles meet the Bulldogs of St. Joseph's Academy of Abilene. The final event will be a Chuck Wagon dinner at 6 p.m. All ex-students are urged to attend.

Hamlin 4-H Clubs for 1963-64 were organized on Sept. 16. The following officers were elected: Boys Club: Gil Lain, president; Milbourne Newland, secretary; Pat Jenkins, council delegate; Mike Young, adult leader. Girls Club: Sharon Hawkins, president; Debra Blanton, vice-president; Linda Cox, reporter; Pearce Holland, council delegate; Rena White, recreation and song leader.

The Pied Piper Booster Club announced this week that they have changed the time of their meetings from 8 p.m. to 7:30 p.m. The organization meets in the High School Cafeteria and the new meeting time will be used the rest of the season.

And What Have You

—Continued from page one

may be a few souls who walk, but there are mighty few.

Since these people in New York are only going by the government statistics, they have no idea how people in West Texas get to work or for that matter if there are any people in West Texas.

What it all boils down to is that fact that you have to wonder about these government statistics that are always being used to prove or disprove things. If the bulk of government statistics are no better than these, then it is no wonder that the country is in such bad shape.

With statistics like these it is no wonder the government makes such a mess of trying to control inflation, unemployment, or anything else.

In looking over most of the weekly newspapers in West Texas I find that what to do with garbage and trash seems to be one of the major problems facing most of the cities around the state. It will likely be the next big problem facing our local city dads. Hopefully, they will be able to have the sewer problem under control before they are faced with the garbage problem.

But this problem of garbage and trash has been a major headache since the cities have had to stop burning and have gone to landfill operations. The next problem will be that after the first of the year there can be no more burning of trash at home. This will increase the already over loaded garbage service here in Hamlin as it will all over West Texas.

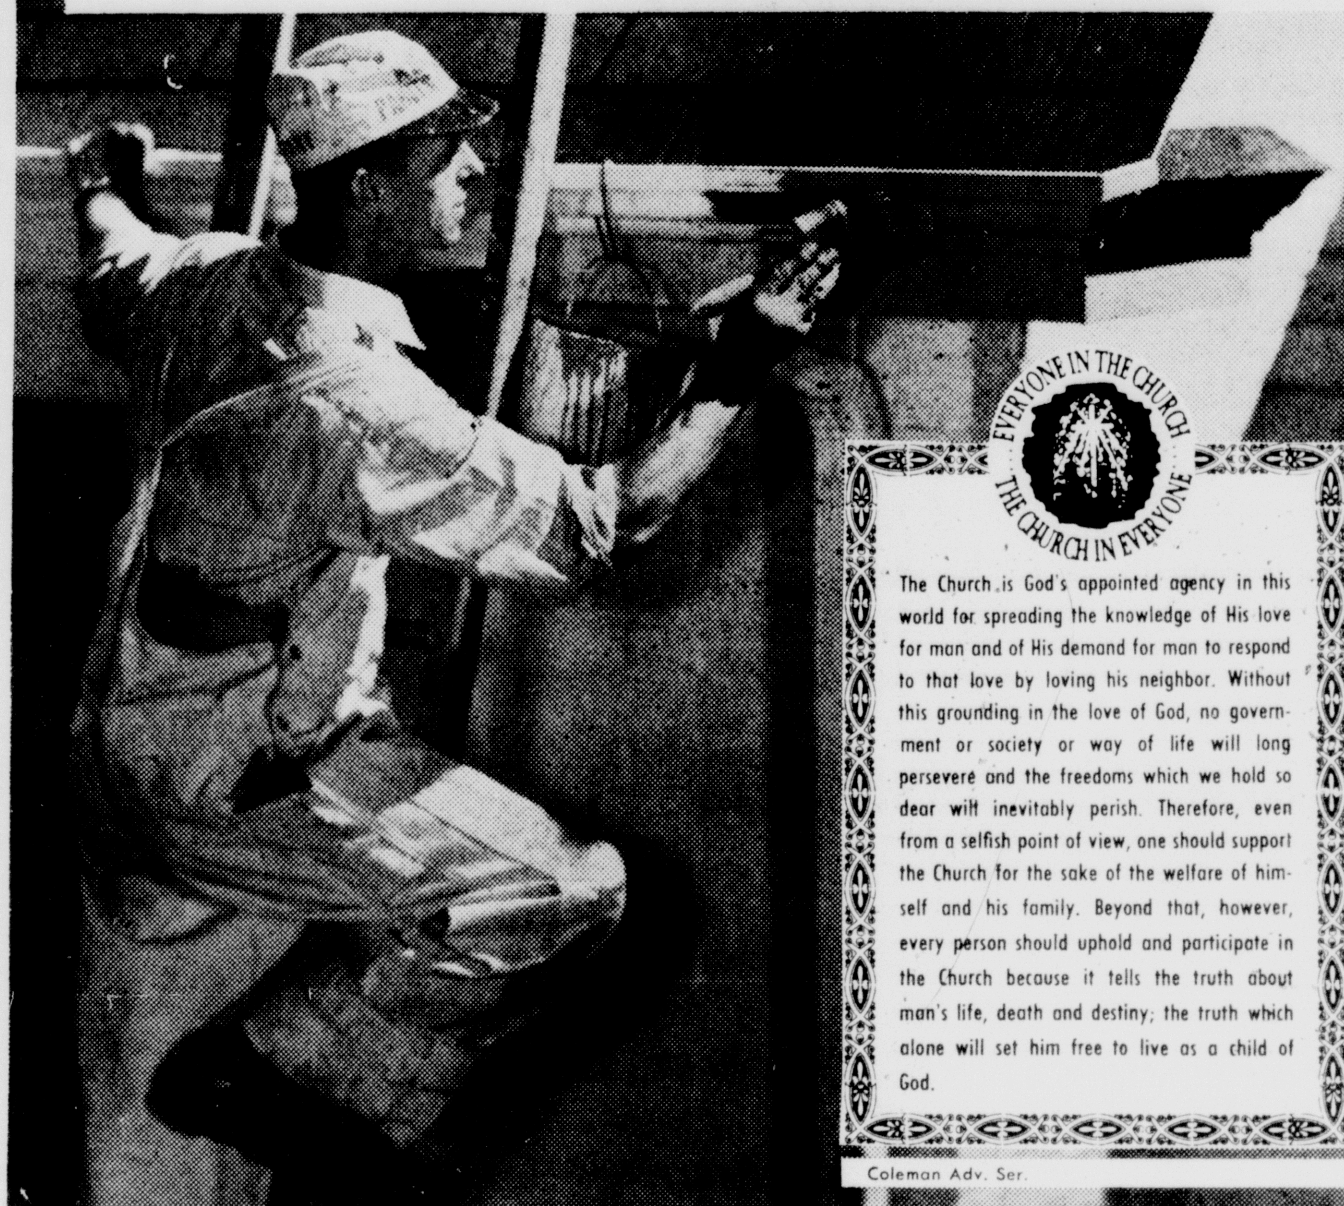

From what we can tell from looking over the papers around the state, most cities are taking a long hard look at containerization. This is the system where the big containers are placed up and down the alleys for residents to put trash in.

The biggest problem with this method is that it is very expensive to install and people in some areas such as Abilene have opposed it for a variety of reasons.

But the advantages are many, such as a 60 percent cut in labor force, more sanitary conditions, no dog problems, one-man operation, better working conditions for employees, more rapid collection of garbage, and the method is said to pay for itself in approximately five years.

PAINT . . . Protects wood and metal GOD'S WORD . . . Protects the soul

As paint protects wood and metal from decay, rust, and corrosion, so the promises found in God's word protect the soul from the evils of sin, anxiety and despair. Hear God's wonderful promises proclaimed from the pulpit in the church of your choice this Sunday. These promises so heard will accomplish wonderful things in your soul and heart, for God says of His Word, "It shall not return unto me void, but it shall accomplish that which I please, and it shall prosper in the thing whereto I sent it." Neinda Philosopher Comes Out In Favor to Pay Election Costs With Taxes

Eitor's note: The Neinda Philosopher on his Johnson grass farm on Route One comes out flat-footedly, probably while sitting down, for a new election proposal this week.

Dear editor:

People are always talking about inflation, about the high cost of things from groceries to medicine to tractor bolts to borrowing money, but I don't know of anything that inflation has hit harder than politics.

I guess you'd call it inflation, if you mean paying twice as much for the same product, with or without a warranty. Just because you're paying more doesn't mean you're getting a better tractor bolt or Congressman.

According to an article I read in a newspaper last night, 1,896 candidates running for U.S. House and Senate seats last year reported spending more than 77 million dollars in primary and general elections. How much was unreported is a matter between the candidates and their conscience, something I wash my hands of.

Now less than a fourth of

those 1,896 candidates got elected, but if they'd all got elected, it means they spent 77 million dollars for offices which would pay, at the current salary of \$42,500 a year, about 80 million dollars. Talk about inflation!

Naturally those candidates, except in a very few rare instances, didn't spend their own money. It came from contributors, the vast majority of whom were big contributors, on the theory I guess that the more money a man has the more interested he is in good government.

Now some people dispute this,

Spanish Club Elects Officers

Sheri Howerton was elected president of the Spanish Club at the Sept. 9 meeting at Hamlin High School.

Other officers include Jim Johnson, vice president; Elaine Kelley, secretary; Ray Scifres, treasurer; Debbie Hix, reporter; and Randy Crouch and Olga Rivera, sergeants-at-arms.

saying a lot of big contributors are just making investments with a satisfactory return on their money expected, and to offset this some people are proposing that all contributions to campaigns be banned, that elections be financed by a dollar a head tax on all citizens.

Under this system, no person would have more than 50 cents apiece invested in his two Senators and, depending on the size of his state, around 10 or 15 cents in his Congressman.

This is what I'd call whipping inflation.

Yours faithfully,
J. A.

Wesbrooks Named Local THD Engineer

J. C. Roberts, District Engineer of District 8 (Abilene District) has announced that Charles W. Wesbrooks has been appointed the resident engineer of the Hamlin residency effective October 1, 1973. As resident engineer, Wesbrooks will direct the surveying, plan preparation and construction programs in the areas of Jones, Haskell, Stonewall, Fisher and Kent counties.

Wesbrooks first began work for the Texas Highway Department in 1939 in Abilene. He then resigned in 1942 to enter the U.S. Navy. While in the Navy, Wesbrooks served three years on board a destroyer in the Pacific and participated in several campaigns, receiving ten battle stars. He was released from active service as a Lieutenant in 1946 and continued in the Naval Reserve until 1950 when he was recalled during the Korean conflict. He retired from the Naval Reserve in 1965 as Lieutenant Commander.

Wesbrooks was licensed as a Registered Professional Engineer in 1950. He has worked in Baird, Stamford and Abilene during his 34 year career with the Highway Department. At present he is Supervising Resident Engineer of one of the two residencies in Abilene.
